# Publishing and Interlinking Linked Geospatial Data

**Tutorial in Conjunction with the**  
**12th Extended Semantic Web Conference**

HELLENIC REPUBLIC  
National and Kapodistrian  
University of Athens

# Tutorial organization

**9:00-9:15** Introduction

**9:15-10:30** Background in geospatial data modeling, representing geospatial information in the Semantic Web, and querying linked geospatial data.

**10:30-11:00** coffee break

**11:00-12:00** Publishing geospatial information as RDF graphs

**12:00-12:30** Discovering Spatial and Temporal Links among RDF graphs

**12:30-14:00** Lunch break

**14:00-14:30** Discovering Spatial and Temporal Links among RDF graphs

**14:30-15:30** Hands-on session: Publishing geospatial information as RDF graphs

**15:30-16:00** coffee break

**16:00-17:00** Hands-on session: Discovering Spatial and Temporal Links among RDF graphs

**17:00-17:10** Conclusions
